Make a High Volume Manual Vacuum Pump (with Pictures ...

One way to make a vacuum pump is by using a syringe, 3 1-way bicycle tire valves, a hot knife with a tip that matches the size of the valves, and some tubing. First, use the hot knife to burn a hole into the side of a 50 to 60 milliliter needleless syringe. Try to keep this hole as small as possible, since you want a tire valve to fit in it tightly.

Penis Pump Comparison: Battery Operated Or Manual

Before you use your vacuum pump, make sure it is full of clean vacuum pump oil. Unscrew the oil fill cap, typically located on the top of the pump, and look on the interior edge of the opening for the fill line. Fill the opening with oil until it reaches that line. Then, replace the oil fill cap. Be sure to only use oil meant for vacuum pumps.

How to Use a Vacuum Pump: 9 Steps (with Pictures) - wikiHow

7. Use two pumps on very large systems to reduce vacuum time. Put one of the pumps on the low side of the system and one pump on the high side of the system. 1. For the fastest vacuum, connect your pump directly to the system. Going through a manifold slows the job. 2. Use as large a hose as possible, even though the system has 1/4" fittings. A
