When stationary stand with your feet a bit wider than shoulder width apart. Hold the stick in your strongest hand and have your strong side as your lead. The bottom of your weapon extends between 1 and 2 inches below your little finger. Unless striking or blocking, hold your stick over your shoulder.

Basic Stick Fighting Techniques for Self Defense

Many people call them kubotans (named for Tak Kubota) or yawara sticks (which might strike some as calling a bo a “bo staff,” but let’s not get picky here). Don Cunningham, in his book Secret Weapons of Jujutsu, indicates that fist loads were sometimes referred to as tenouchi (literally, “inside the hand”).

Pocket Sticks for Self-Defense | The Martialist

The Kubotan stick is simply a five to six inch long stick self defense weapon and is derived from the Japanese yawara stick. They have some advantages over other types of weapons as they are always accessible and very durable and they never break or jam and one of the major advantages of the kubotan is that it is mostly legal in most of the metropolitans being just a piece of metal.
